**Frequency:** Quarterly

First published on June 30<sup>th</sup>, 2011, *Advances in Petroleum Exploration and Development* is devoted to promoting the development of petroleum exploration and development, and builds the bridge between the geology and the engineering of petroleum and natural gas. APED covers the fields of petroleum geology, petroleum exploration and development in its broadest possible sense. It publishes peer-reviewed original scholarly high-quality work such as analytical, numerical, or experimental results and physical analysis of processes of lasting scientific value. Those pertaining to modeling, theory, analysis, simulations, technology development, experiments, visualization and measurement techniques are also appropriate for the journal. High-quality research papers are solicited in, but are not limited to.
