Advances in Petroleum Exploration and Development

ISSN 1925-542X [Print] ISSN 1925-5438 [Online]

Frequency: Quarterly

First published on June 30th, 2011, *Advances in Petroleum Exploration and Development* is devoted to promoting the development of petroleum exploration and development, and builds the bridge between the geology and the engineering of petroleum and natural gas. APED covers the fields of petroleum geology, petroleum exploration and development in its broadest possible sense. It publishes peer-reviewed original scholarly high-quality work such as analytical, numerical, or experimental results and physical analysis of processes of lasting scientific value. Those pertaining to modeling, theory, analysis, simulations, technology development, experiments, visualization and measurement techniques are also appropriate for the journal. High-quality research papers are solicited in, but are not limited to.

Authors could send manuscripts by E-mail: aped@cscanada.org aped@cscanada.net caooc@hotmail.com

Or send paper by post office to: 758, 77e AV, Laval, Quebec, H7V 4A8, Canada

For citation format, we require parenthetical citations within the text rather than endnotes or footnotes. Citation in the text provides information, usually the name of the author, the date of publication (the Author-Date System), and if need, the page number(s), to lead the reader to the accompanying full bibliographical entry in the reference list which is placed at the end of the research paper. We only accept the APA (American Psychological Association) style.
