Abstract

Moral education emphasize that people must emphasize moral's effect and must emphasize moral effect's exert and must emphasize moral influence exert and moral function's exert, and must insist principle of moral prior, and must insist principle of moral paramount and moral guidance and must insist principle of moral protect and moral guarantee, moral education stand on economy and push economic persistently develop, and push economic moral persistently develop, and promote economic develop manner's transformation and adjustment, and promote economic develop manner's transformation and adjustment.

Key words: Moral education; Economic develop; Economic construct; Economic probe

Wang, X. X. (2025). Moral Education and Economic Develop. *Higher Education of Social Science*, 29(2), 35-40. Available from: URL: <http://www.cscanada.net/index.php/hess/article/view/13936> DOI: <http://dx.doi.org/10.3968/13936>

Moral education is a sort of research that appears in recent years and its main characteristics is put the emphasis on moral practice robust and moral develop enhance which emphasize stuff develop must rely on moral and moral develop and must rely on moral education and moral education develop, and these develop can push economic develop and economic modernization further develop. In recent achieved reference and bibliographies, research emphasize family moral education's importance, school moral education importance, and social moral education's importance, and put the emphasis on analyzing moral education's develop process, and its research focus. Qiu

and other researchers studies mainly on moral develop's citizenship logistics, and emphasize moral education's develop is for sake of pursuing objective of freedom, and in order to achieve freedom that include national freedom and social freedom, and individual freedom and ex-individual freedom, and these freedom's achieve and reach must depend on relation pursuit and connect achieve, and must obey these pursuit and achieve to achieve certain objective and reach into the field of freedom. herein, people and human become a sort of methods, tools, and bridges that can be used to connect different unite and connect different individuals and finally and eventually achieve individual benefit and unite freedom. Moral education develop obey a certain trails that can be concluded and summarized in to following expression: firstly, found out citizenship logistic and and root with these logistics, and secondly, rethink and reshape citizenship's logistic's develop and promote and push relation and connect develop with step and probe of citizenship' logistic develop, and thirdly, surpass citizenship's logistics and surpass and outreach these relation and connect and reroot citizenship's logistics, and promote moral develop obey the trail of post relation and post connect. (Qiu, 2024) Han and other researchers emphasize that moral education develop must experience following stages and first one is practice drive gradually become moral education develop's dominant logistics and second one is re-criticized new-personal and new quality education and third one is conducting irrational criticize on moral education. Originate from practice drive to re-criticize on new quality moral education develop and further to irrational criticize, moral education develops from a stage of structure shape to a stage of structure reshape and reconstruct and to a stage of structural evolution, and moral education develop must encounter structure's shape and reshape and must encounter structure's evolution and leap forward. (Han, 2020) Other references and literature emphasize moral education

develop's different fields and researchers start from different fields and areas to explore moral education's new connotation. Liu linjie and other researchers emphasize moral education must be pluralism and concrete and pluralism emphasize educators must conduct different methods and trails to different learning audience and must conduct different attitude to different individuals, meanwhile, people must conduct concrete and penetrate education and use these education resource to teach people to explore personal develop space, to explore individual develop new orientation. (Liu, 2025) Lu yunfei and other researchers emphasize and point out objective of revolution moral's develop and innovate and revolution moral inherent and innovate's emphasis and revolution moral 's inherent and innovate's focusing and kicking point. (Lu, 2025)

Researcher recent refer moral education and regard moral education as other field's and discipline's develop basis and regard moral education as economic develop and society develop's basis. Moral education emphasize that people must emphasize moral's effect and must emphasize moral effect's exert, and must emphasize moral influence exert and moral function's exert, and must insist principle of moral prior, and principle of moral paramount and moral guidance and must insist principle of moral protect and moral guarantee, and must insist principle of moral develop and moral enhance, and must insist principle of moral robust and moral upgrade, in process of upgrade and robust and develop and enhance of moral, meanwhile, people must insist principle of enhancing moral sphere and enhancing moral standard and enhancing moral principle and enhancing moral practice, and use these enhance and robust to upgrade moral and excavate moral, and enhance moral highers and ceilings and develop moral connotation and content. These upgrade and robust and enhance can promote and push moral 's develop and can promote and push moral construct and moral push, and can upgrade and enhance moral structure and moral function, and can upgrade and enhance moral sphere and moral level and can promote moral persistently develop and construct and leap.

Moral education can push economic develop (Xi, 2024) and can push economic construct and economic probe, and these develop and construct and push can promote economic persistently advance and persistently construct and persistently step forward, (Li, 2025) and these develop and construct and step forward must be conducted on the basis of moral education and must be insisted by conducting principle of insisting push economic modernization and insisting push economic probe and step forward. Moral education must insist that economic priority must and should rely on morality, and must use economic to guide people's thoughts and behaviour and use economic to guide people's daily life and daily work, and use economic to guide and construct people's living environment and working environment

and living ecological and working ecological. People must insist principle of moral push and robust economy, and use moral to realign and adjust people's behavior and economic thoughts, and use moral to regulate and specify people's economic moral and economic ethical, and push economic persistently develop and persistently probe.

1.MORAL EDUCATION: STAND ON ECONOMY AND PUSH ECONOMIC PERSISTENTLY DEVELOP FURTHER

Moral education emphasize that moral education must insist guiding position of moral ideal ,moral faith, moral confidence and moral belief, and must use moral ideal, moral faith, moral confidence, and moral belief to guide people's daily behaviour and daily thoughts, and to guide people's daily practice and daily activity, and to guide people's normal work and normal life, and these guidance and directs can promote and push people's normal living and normal behaviour and can promote and push people's normal living and normal behaviour step towards a status of that which can be regarded as be more corresponding with moral regulation and be more corresponding with status of harmonious and be more corresponding with status of friendly. And these corresponding and adjustment can be deemed as driving power of economic develop and can be deemed as develop basis of economic develop.

Moral education can be deemed as important content of social teach and family teach and school teach (Li, 2024) and can be deemed as social develop and human develop and group develop's basis and can be deemed as scientific develop and education develop and talent develop's basis and can be regarded as stem and origin of talent fostering and stem and origin of talent develop and talent mature and can be deemed as driving force of talent develop and talent mature and of nation develop and social develop. Moral education emphasize that people must use moral regulation and moral specification to guide people's behaviour and to guide people's daily practice, and to guide and to direct people's daily work and daily life. This sort of guiding and directing can direct people step forward a new orientation and direct people to step to more civilized and more flourish economic, and guide and direct people to step to more democratic and free economic, and push economic develop forwards more flourish and strong ,and more democratic and free, and more civilized and harmonious orientation and promote economic to be more independent and more coherence, to be more unity and more comprehensive. Human capital theory reckons that human's ability and competent and quality is results of accumulating people's knowledge, and technique and other quality maturing and human capital 's accumulation can reflect people's moral storage and moral abundance and can reflect accumulating process

of moral and exerting process of moral elasticity, human capital investment is not only a sort of investment that put the emphasis on knowledge and technique, but also a sort of investment that put the emphasis on moral and moral develop. Researchers reckon that investment and benefits can be accumulated into hand of poor and these poor have the capacity to control and realign benefit smooth and investment smooth and herein people make a conclusion that poor can better tackle operation of investment, investment here put more emphasis on moral aspect and put more emphasis on moral investment and moral develop investment and emphasize further human investment of poor, and herein exist a phenomenon of that investment into poor is not reflect comprehensive and investment into rich is also a sort of moral investment. Theory of human capital and human capital investment can push moral economic further develop and can push moral economic step towards a more broaden and widen scope and spectrum and step into a more broaden horizon and a more scope and widen future.

Moral education emphasize that moral education must insist put the economic develop at the basis position of education develop and must emphasize economic develop 's importance and economic probe's importance and must point out that education develop is economic develop's basis and economic develop is the premise of education' develop, and insist moral develop's priority is economic develop's the condition and economic develop is moral develop's guarantee. Moral education economics emphasize that moral can push economic increase and can help achieve and finish and attain economic transition and economic probe, moral education is a sort of driving force of economic increase and moral education's increase can take economic increase and capital re-consolidating and re-concentrating and moral play a role of distribute and redistribute people's income and government income and play a role of income distribution adjustor, and these adjustor can realign income elasticity and and distributing elasticity, and these realignments can push economic develop and probe, and can push economic step forward a more ideal status. Thus, moral education is economic increase's origin and stem and spring, and is economic transition's important driving force and power.

Moral education insist that moral develop is moral growth and moral mature's premise and moral develop is important premise of moral isacavation and moral enhance and moral robust, and moral develop is premise of moral leap, moral reconstruction, and moral reshape, and of that is premise of moral achieve, and moral arrival, and is premise of economic develop and economic probe and is premise of economic leap and economic arrival and is premise of economic achieve and economic upgrade. Moral education emphasize that moral develop must insist moral regulation and moral specification and must use moral regulation and moral specification to guide

economic develop and economic probe and to guide economic persistently develop and persistently probe and step forward. And moral education from beginning to the end emphasize moral education must insist moral rule and moral law and must use these moral rule and moral law to guide people's economic behaviour and people's economic thoughts, and must insist principle of people must emphasize economic and must emphasize economic realign and adjustment and must insist economic prior and economic basic and must insist using these priority and basic to guide economic develop and economic probe and to guide people's economic behaviour and economic thoughts. Moral education must insist and emphasize moral education and use these moral education to realign and adjust people's economic practice and realign and adjust people's economic activities and thoughts.

Moral education must stand on economics and must lay the foundation on economics and must put the emphasis on promote economic increase and promote economic probe and must insist using education to persuade people 'economic behaviors and to foster people's economic behaviour and to mature people's behaviour, and must emphasize moral education and moral develop's promote effect on economic behaviour and economic thoughts and emphasize people must insist moral education and must exert moral education's promote effect and moral education's guide effect, and ensure moral education can exert the influence on economic develop and economic probe. Moral education must emphasize economic moral and economic ethical and use these economic moral and economic ethical to realign people's thoughts and behaviour and to realign people's economic behaviour and economic activities and economic practice and to realign people's economic ideal and economic attitude and economic faith, and realign people's economic outlook and economic values, and use these realignment to form and shape people's economic behaviour and economic thinking, and these conduct can be used to push economic persistently develop.

2. MORAL EDUCATION: PUSH ECONOMIC MORAL PERSISTENTLY DEVELOP

Technique can push economic probe and technique's user can push economic by using technique and advanced tools, and herein refers to problem of technique power and of technique power transfer, technique power stem from moral and technique power transfer simultaneously refers to moral develop and at the same time must be based on moral develop. Moral and moral develop can push economic persistently probe and step forward, and these probe and step forward reflect moral advance and moral probe, and these reflect mirror moral's determine position to economic increase and technique power transfer, and

these technique power transfer must be based on moral transfer and must be based on moral elastic realign, rich in elastic means advance and probe of moral and moral education and means moral education's further develop and reflect technique power transfer's deep further. Thus, moral education is driving force of economic develop. Moral education emphasize that economic moral can realign people's behaviour and thoughts and outlook of world and realign people's outlook of benefit and outlook of economy and finance and help people to reshape economic behaviour and economic thoughts and reshape people's economic faith and ideal, and reshape people's economic notion and economic opinion. People must insist that moral education must be corresponding with economic develop require and moral education must be corresponding with economic construct needs and moral education must be corresponding with economic develop needs and economic sphere enhance, and must be corresponding with economic develop needs and economic construct needs. And these meets and correspondings can meet moral education's requirement and moral develop's requirement and can push moral construct and can push economic construct on the basis of these meets and correspondings and summon and advocate moral increase and push economic increase on the basis of it. Moral education emphasize that moral must be corresponding with economic and people's economic level must be corresponding with people's moral level and people's economic level must be regarded as basis of people's moral and must be regarded as people's re-flourish and restructuring basis, and must be regarded as people's economic driving force and driving power.

Moral education emphasize that moral education must lay the foundation for economic education and must lay the foundation for economic develop, and people must ensure that economic develop must put the emphasis on moral develop and must put the emphasis on moral construction, and moral develop and construction must in reverse exert the influence on economic develop and must in reverse exert the influence on economic construct, and must in reverse exert the influence on economic growth and economic mature. Moral education must set a standard for economic develop and set a regulation and rule for economic develop and construct, and these standard and rule must be corresponding with moral specification and moral law, and must be corresponding with moral exhibit and moral forbid, and these correspondings can be used to reconstruct nation and society, and these correspondings can be used to promote economic develop and economic flourish, and can be used to promote economic recovery and economic flourish.

Economic premise of any economic behavior is distinguish of rational conduct and irrational conduct, and these premises and hypotheses can promote people's

thoughts on economic ethical and economic moral and can promote people to rethink and re-understand meaning of economic moral, and reexplain meaning and connotation of economic moral, and re-scrutinize economic moral and its develop law. Economic moral must insist economic regulation and economic specification's shape effect, and must insist economic custom, economic tradition, economic discussion, economic ideal and economic faith, and must use these custom and tradition and discussion and faith to direct people's economic behaviour and direct people's economic conduct and direct people's economic values and pursuits. Economic moral must put the emphasis on general moral and general regulation and other specifications and must focus on moral develop and moral advance and must promote economic develop and economic probe and should put the emphasis on people's realign to economic behaviour and economic thoughts and to economic develop and economic advance, and put the emphasis on people's realign to economic construct and economic robust, and these realign can promote economic develop and achieve economic advance. Moral education is basis of economic moral develop's premise and this premise can promote economic moral's develop and economic moral education's advance and can achieve economic moral's realign and probe and these realign and probe can push economic develop and economic probe. Economic education emphasize that economic is basis of people's daily life and people's economic must keep status of independent and free, and these status of independent and free can help people to construct new economic and rebuild new economic bodies and reconstruct new economic system and scheme. Economic education emphasize that education must insist economic conceptual priority, economic connotation priority, and economic characteristic priority and economic structure, and function, and status and meaning priority and must insist economic education must face towards modernization, face towards world and face towards future, and economic education must insist principle of theory connect with reality, and economic education must insist a principle that can be portrayed that people must have intimate relation with massive, and must insist principle of people must conduct criticize and self-criticize, and these conduct reflect moral education's main theme and reflect moral education's main goal, and these theme and goal can push economic education's develop and promote economic education persistently probe and can push economic moral persistently step forward and probe and this sort of develop and probe can push economic persistently develop and leap forward. Economic moral is ethical basis of economic develop, economic moral emphasize navigating effect of economic specification and economic rule on economic behaviour, and navigating effect on economic action and economic thoughts. Economic moral emphasize

realign effect of economic and emphasize realign effect of economic and emphasize economic promote effect on political develop, culture develop, social develop and ecological develop and emphasize economic develop 's realign effect on other fields and disciplines.

3. MORAL EDUCATIONS:PROMOTE ECONOMIC DEVELOP MANNER'S TRANSFORMATION AND ADJUSTMENT

People live and exist in a information world and this world requires that information must be systematic and even and symmetry and the world must be comprehensive and valid, and under the influence of this world, people's information is comprehensive and enough and complete and people can use these complete information to guide their daily life and daily work, (shiller, 2024) and use these information to guide people's produce and living practice, and revolution and reform activities and promote economic activities step towards more modernization, more democratic, more freedom, and more peaceful status, by means of using guiding effect of complete information. Moral education emphasize education must insist information orientation and must insist using complete information to compliment and perfect education's content and education's goal, and must insist using complete information to flourish and develop moral education and tough and consolidate moral education's content. These flourish and consolidate's premise is complete and comprehensive information and this sort of information can push moral education's develop and simultaneously economic system and these economic system can be use d to flourish these develop and to promote and push economic's develop and increase.

Moral education emphasize that moral must promote economic develop and must promote economic enhance and robust and these enhance and robust is achieved under the guidance of complete and comprehensive information and under the guidance of enough and valid information and these guidance can promote economic activities further step and promote economic behaviour economic thinking and these promote can achieve the arrival of economic goal and the achieve of economic ideal. In process of economic develop, economic goal and economic ideal can play the important role in the economic arrival and economic develop and these arrival and develop can promote social develop and social peaceful and promote social harmonious and social stableness, and these promotion can lay the foundation for economic and achieve economic develop and economic probe. Moral education set following trails for economic develop and economic probe and set the following methods for economic step forward and these trails and methods can be concluded as following: firstly, moral education set the develop

road for economic develop and ensure economic develop can be achieved under the influence of moral regulation and moral specification, and moral education provide and refer economic develop's as moral road settled for economic develop and these road can better realign people's economic behaviour and people's economic thoughts and can better realign people's economic inspiration and people's economic power. Moral education emphasize that moral develop must regard economic probe as goal, and moral develop must promote and help economic develop and probe, and morality is premise of economic and morality can be used to enhance and robust economic development and robustness. Secondly, moral education can set moral objective for economic develop and set moral target for economic develop and blaze the moral trail for economic develop and robust and economic develop enhance, and moral education deliver and pass economic moral for economic develop connotation and content and emphasize economic develop must serve for people and must serve for public benefits, and these people and benefits can serve for economic increase and economic enhance. Thirdly, moral education must emphasize economic moral consolidation and economic moral enhance, and must ensure economic moral 's develop can have a strong and tough base effect and influence and economic moral enhance must have a strong support effect on economic probe and enhance and these probe and enhance as bases and supports must be corresponding to economic moral's develop and must be corresponding to economic moral's enhance standard, and must ensure economic level 's enhance can be corresponding to moral level enhance.

Economic moral enhance can promote economic transformation and adjustment and economic moral more tough, economic transformation and adjustment more stable and more advance. Economic moral lay the basis for economic enhance and economic transformation and economic adjustment and this sort of basis can push economic develop and economic transformation develop. Economic moral provide basis obey for economic develop, and economic develop and transformation can in reverse realign economic moral's develop. Economic moral provide a basic regulation for economic transformation and provide a basic mold and scheme for economic develop and transformation and adjustment.

4. MORAL EDUCATION : SET A BASIS AND PLATFORM FOR ECONOMIC ENHANCE

Moral education can help people to expand space and environment, and help people to keep a certain extent of space and a certain extent of environment and these expand and keep either come from daily practice or/

and come from moral education, and origin and stem's increase of these expand and keep come from moral education and result from moral education. Moral education is capable of promote and push economic's develop and economic increase manner's transform and increase and these pushes can help people to reshape new economic notion and style and nudge people to shape new economic behavior habit. New economic behaviour's fostering and shaping can stem from moral practice and moral education and can be expanded and leaned and yawned towards a new shape and a new status, and promote a new economic attitude and new economic notion to form and promote economic persistently at work and at shape.

Moral education can set a basis and platform for economic increase and economic develop and economic can enhance and form a more flexible trail and panel for economic develop and set a more flexible platform for economic leap and economic sphere's enhance. Moral education must emphasize moral develop and moral sphere enhance and must promote moral practice and moral activity further develop and on the basis of it to promote and push economic moral develop and economic status develop and probe, and promote and push moral excavation's further develop and moral explore's further develop. Moral education emphasize carriage construct and stage construct and these construct can push economic develop carriage and economic develop stage persistently renew and ensure economic status can be manipulated and controlled under a status of safeguard and controllableness and make sure these economic status can be kept and maintained.

Economic enhance need support of moral and ethical and need meets of requirement of moral, and these requirement be better received and meets and be better mastered and conquered and these meet and received and arrival can promote and push economic status persistently advance and persistently step forward and develop. Moral support can push moral develop and moral develop and can promote and bring economic with develop and enhance and robust and promote economic status persistently leap towards a new status and maintain these status with a stable condition and a status of stable and safety. Economic enhance can obtain the thinking resource from economic increase theory, economic develop theory, industry organization theory and other economic theory and achieve and maintain economic sustainable and persistently develop and enhance.

Economic enhance must maintain origin economic status and origin economic bone and benchmark and stem and use these origin and stem to foster and mature people's economic habit, economic inspiration, economic driving force, economic emotion and economic moral, and these foster and mature can promote people to shape

good economic habit and good economic thinking and good economic tradition, and these shape and form can push economic achieve further develop and probe. Economic enhance can push economic develop and economic probe and these develop and probe can promote economic persistently increase and economic persistently innovate and promote economic lean towards a more open and a more bright economic prosperous. Economic enhance mainly depend on moral develop and moral develop can push economic develop and increase and can push economic step forward on the basis of certain standard and regulation, moral develop must depend on moral education and moral education can promote moral develop and moral advance and can push moral robust and moral enhance and these robust and enhance can promote economic develop and economic probe and step forward, economic develop and step forward can push economic further enhance and can promote economic achieve further robust. Moral develop can promote economic advance and economic develop on the basis of laying the foundation for economic probe with moral basis and with moral premise and these basis and promise can promote economic persistently develop.
