

CONTENTS

Modelling Adult Mortality in Nigeria: Ananalysis Based on the Lee-Carter Model

A. U. Chukwu; E. O. Oladipupo (1)

New Exact Solutions of Nonlinear Partial Differential Equations Using Tan-Cot Function Method

Anwar Ja'afar Mohamad Jawad (13)

Local Study of Singularities on an Equiform Motion

Nassar H. Abdel-All; Areej A. Al-Moneef (26)

The Discussion on the Mode of Undergraduate Tutorial System for Financial Mathematics Students of Local Universities

Xing YU; Hongguo SUN; Guohua CHEN (37)

On Hermite-Hadamard Inequality for Twice Differentiable Functions Bounded by Exponentials

S. S. Dragomir; I. Gomm (44)

Characterizations of Mappings Via Z-Open Sets

Ahmad I. EL-Maghrabi; Ali M. Mubarki (55)

Nonoscillatory Solutions for System of Delay Difference Equations on Time Scales

Lanchu LIU; Youwu GAO (66)

Analysis of Traffic Flow at Signalized Junctions in Uyo Metropolis

Nse S. Udoh; Emmanuel J. Ekpenyong (72)

Oscillation of Nonlinear Delay Partial Difference Equations

Guanghui LIU (90)

The Membership Relation in Fuzzy Operators

Shiqiang ZHANG; Yaling LUO (98)

A Empirical Analysis on Performance Evaluation of the Tertiary Industry in Eastern Chinese Province Based on DEA

Chengju LI (105)

A New Class of Continuous Fuzzy Operators Located Within the Probability Operators

Shiqiang ZHANG; Feng XU (113)
